

## Editor`s Message

Pakistan Orthodontic Journal made its landmark in Orthodontic Quality Research with its inception in 2009 under the leadership of Prof Muhammad Amjad Asim. Just like the newborn it has to face infancy hurdles but continued to grow and broaden its research quality with each publication. Prof Sheraz, Prof Ulfat Bashir, Prof Haroon Qazi, and Prof Shah Faisal as Editor in Chief along with their editorial teams including Prof Ghulam Rasool, Prof Saqib Naeem, Prof Javeria, Prof Afeef Zia, Prof Sohrab Shaheed, Prof Nasserullah Mengal, Prof Owais Durrani, Prof Zubair H Awaisi, Prof Rehan Qamar, and Advisory Editorial Board has performed excellently well for the publication and accreditation of this journal for last 14 years.

Author`s contribution, Reviewers esteemed quality input and readers interest have made this journal successful. Editorial team is especially thankful to reviewers who take time from their prestigious commitments and contribute for professional growth. I feel this is the right time that we should start contributing by Systematic Reviews, Meta-Analysis and Scoping Reviews as well. Medical / Dental education has gained popularity over the years and submissions related to this domain must be encouraged.

I am thankful to Prof Irfan ul Haq and his Council members to give me opportunity to contribute as editor in chief. It is an honor and a challenge to take this responsibility. I am sorry if I forget to mention anyone who has been part of this journey. Hope with the help of you all my team will inshallah be able to deliver to their best.

Prof Saad Asad  
BDS, BSc, FCPS(Ortho), MME  
Editor in Chief,  
Pakistan Orthodontic Journal
