

Editor's Message

We are pleased to present the latest issue of our journal, continuing our commitment to advancing orthodontic research and clinical practice. Original articles remain the cornerstone of scientific progress, and we deeply value the contributions of our authors whose research adds meaningful knowledge to the field.

This time, we are delighted to share that an original article from the field of Medical Education has been entertained for the first time – marking a step forward in diversifying the academic scope of our publication.

Our sincere appreciation goes to our dedicated peer reviewers and esteemed editorial board, whose efforts ensure the quality and integrity of each publication.

We proudly share that our journal has maintained its approval by the Pakistan Medical and Dental Council (PMDC), a testament to the collective efforts of our contributors. We are actively pursuing recognition by the Higher Education Commission (HEC) and the College of Physicians and Surgeons Pakistan (CPSP), and are in the process of applying for DOI assignment to further enhance academic reach and visibility.

We encourage the orthodontic community to continue submitting high-quality manuscripts. Please ensure adherence to PMDC's similarity index requirements, and note that a mandatory AI-use disclaimer must now accompany all submissions.

Congratulations to all for your unwavering support and dedication. Together, we move forward.

Together, let us continue to foster a culture of excellence in orthodontic research and practice.

Professor Saad Asad
